## *Superintendent*

James J. Hager

Dear Class of 2001:

It is my hope that the experience you have gained at Southeastern will have provided you with the necessary skills to prepare you for the career you have chosen, and a successful one at that.

In the years ahead, it is hoped that you will look back to pleasant memories of Southeastern, your teachers and classmates, and that your involvement with the Southeastern Alumni Association will proliferate and enhance such memories.

My best wishes for a most successful future.

Yours truly,  
James J. Hager

2001

## *Principal*

Jerome F. Burke

Dear Graduates of the Class 2001:

Congratulations to the Class of 2001. I am so proud of you. You leave Southeastern with a High School diploma and a Vocational Certificate ready to begin the next phase of your life. You received a vocational/technical and academic education during your four years at Southeastern, an education which prepared you for your future. Demonstrated the motivation and determination to succeed, but most of all you showed the attitude to succeed. I congratulate you.

Remember your classmates, your teachers, and the people that were always there for you...your parents. Maybe one or all touched your life and pointed you in the direction to succeed. I hope you thank them for that support and encouragement. I wish you to continue to find support and encouragement from the people around you. If you don't receive support and encouragement from the people around you and I quote Mark Mainella, the man who spoke to us last fall," then change the people around you," Don't settle for less than the best, you deserve the best.

It is my pleasure that the Class of 2001 was my first graduating Class as Director/Principal. Your smiles and greetings this year made my days so very special and I thank you for that. I will greatly miss the class of 2001. Good fortune, I hope you continue to experience success, happiness, and joy and appreciate the lessons that each day teaches.

Yours truly,  
Jerome F. Burke  
Director/Principal
